

Relief of Conscience

Congregations and employers that object as a matter of conscience to their Medical Plan dues being used for abortion procedures may apply for relief of conscience (ROC). This does not affect the Benefits Plan coverage available to their ministers and employees. For those with ROC status, the Board of Pensions sets aside from their dues the same amount that paid for abortion procedures in the prior year among those they cover; this money helps to fund Adoption Assistance through the Assistance Program.

The 221st General Assembly (2014) urged the Board of Pensions to publish a list of those churches that have been granted ROC status by their presbyteries. That list appears below.
